

ZOETIS DIAGNOSTICS

vetscan VS2

Point-of-care chemistry analysis with trusted results

The Vetscan VS2® is a chemistry, electrolyte, immunoassay and acid-base analyzer that delivers uncompromising accuracy in just 12 minutes¹.

Extensive menu
**enables confident
diagnosis
and treatment**

- ✓ **12 different profiles**, 12 minutes to reference lab-quality results¹
- ✓ Multiple analytes on a single profile with **access to specialty tests**
- ✓ Accurate results from **just 2 drops** of blood, serum or plasma*

Intuitive interface with
Intelligent Quality
Control (iQC) **ensures
dependability**

- ✓ **Hundreds of iQC checks** every test run for reliability every time
- ✓ Simple operation delivers **reliable results at the point-of-care**
- ✓ **Small footprint** maximizes counter-top usage

Streamlined
workflow
**enhances
patient care**

- ✓ No controls, routine maintenance or calibrations needed, **reducing costs and time**
- ✓ Consult with **board-certified specialists** at no additional fee[†]
- ✓ **Patient trending** through ZoetisDx.com

¹ Data on File. Study No. TI-04239, TI-05898, TI-05681, TI-05899, TI-06596. Zoetis, Inc.

* Always fill blood collection tube to manufacturer's fill line.

† Requires the use of ZoetisDx.com, the Vetscan® FUSE and at least one Zoetis Diagnostics instrument or service.

Where simplicity meets innovation

Diagnostics made easy with reliable results at the push of a button

Intelligent Quality Control (iQC)

iQC performs hundreds of automated checks of the sample, reagents and analyzer on each test run to verify accuracy and ensure reliability.

Wet chemistry technology

Wet chemistry, or absorbance spectrophotometry, refers to analysis done in the liquid phase.

The Vetscan VS2 uses wet chemistry technology, considered the gold standard for biochemical analysis, to bring reference-lab quality results¹ directly to your clinic. And it does so on an instrument that is small, portable, intuitive and easy to use.

Simple 3-step process

Insert sample

Add rotor

Read results

¹ Calculated value.

[§] Canine with clinical signs or senior feline.

** Can be used if a patient is not using phenobarbital and PHB is zero.

Vetscan VS2 testing options

Test 12 chemistry profiles with results in 12 minutes on one analyzer

Baseline Profiles	 Comprehensive Diagnostic Profile (CDP) ALB • ALP • ALT • AMY • BUN • Ca • CRE • GLOB [†] • GLU • K ⁺ • Na ⁺ • PHOS • TBIL • TP	Canine, feline, equine, ferret, rabbit
	 Preventive Care Profile Plus (PCPP) ALB • ALP • ALT • AST • BUN • Ca • Cl ⁻ • CRE • GLOB [†] • GLU • K ⁺ • Na ⁺ • TBIL • tCO ₂ • TP	Canine, feline, equine
	 Prep Profile II (PPII) ALP • ALT • BUN • CRE • GLU • TP	Canine, feline, equine
Preanesthetic + Critical Care Profiles	 Electrolyte Plus (EP) Cl ⁻ • K ⁺ • Na ⁺ • tCO ₂	Canine, feline, equine
	 Critical Care Plus (CCP) ALT • BUN • Cl ⁻ • CRE • GLU • K ⁺ • Na ⁺ • tCO ₂	Canine, feline, equine
Organ-specific Profiles	 Kidney Profile Plus (KPP) ALB • BUN • Ca • Cl ⁻ • CRE • GLU • K ⁺ • Na ⁺ • PHOS • tCO ₂	Canine, feline, equine
	 Mammalian Liver Profile (MLP) ALB • ALP • ALT • BA • BUN • CHOL • GGT • TBIL	Canine, feline, equine
Specialty Testing Chemistry Profiles	 T4/Cholesterol Profile (T4/CHOL) T4 • CHOL	Canine, feline
	 Phenobarbital Profile (PHB) ALB • ALP • ALT • AST • BUN • GGT • PHB • TBIL	Canine, feline
Species-specific chemistry profiles	 Avian/Reptilian Profile Plus (A/RPP) ALB • AST • BA • Ca • CK • GLOB [†] • GLU • K ⁺ • Na ⁺ • PHOS • TP • UA	Avian, reptile
	 Equine Profile Plus (EPP) ALB • AST • BUN • Ca • CK • CRE • GGT • GLOB [†] • GLU • K ⁺ • Na ⁺ • TBIL • tCO ₂ • TP	Equine
	 Large Animal Profile (LAP) ALB • ALP • AST • BUN • Ca • CK • GGT • GLOB [†] • Mg • PHOS • TP	Bovine

Selecting a profile

Common indications to consider	Suggested profiles available
Health screening: young adult/adult	 CDP  PCPP  PPII
Health screening: senior	 CDP  PCPP  T4/CHOL [§]
Anesthetic screening: young adult/adult	 CDP  PCPP  PPII
Anesthetic screening: senior	 CDP  PCPP
Screening a sick patient	 CDP  PCPP
Monitoring fluid therapy	 CCP  EPP  KPP  PCPP
Monitoring renal patient	 CDP  KPP
Diagnosing and monitoring hepatic patient	 CDP  MLP  PCPP  PHB ^{**}
Monitoring endocrine disease	 CDP  T4/CHOL

ZOETIS DIAGNOSTICS

vetscan VS2

Find the best treatment path for your patients

Chemistry testing is an important first step, but it is often the first of many in the diagnostic process. That's why we offer an integrated suite of products and services that work with the Vetscan VS2® — to provide a complete picture at the point-of-care that helps you individualize care and improve patient outcomes.

Comprehensive

Combine Vetscan VS2, Vetscan HM5 and Vetscan Imagyst® for a minimum database that includes chemistry, hematology, fecal and urine sediment.

Connected

Easily view and share point-of-care results, seamlessly connect to reference laboratories and more — all through ZoetisDx.com.

Supported

Review the images to make your diagnoses and add on remote expert review whenever you need it, so you can treat patients quickly and with confidence.

POWERED BY

Bringing specialist-level medicine to your clinic

The Zoetis Virtual Laboratory offers deeper diagnostic insights that elevate patient care through combined in-clinic and online workflows. With point-of-care analyzers like the Vetscan VS2 and HM5, reference laboratory services and anytime specialist support through clinical consultations and pathologist reviews, it empowers you to make fast^{††}, confident treatment decisions from the very first appointment.

^{††} Dependent on consultant availability
